Pet Projects

BB Desktop Application

Its a desktop\mobile application used to send SMS right from your pc using your blackberry mobile bluetooth connection.

Technologies used: Griffon, Bluecove, Blackberry JDK

XpressTV

Its a website(not live yet) which segregates the TV soap operas published online by various websites by scrapping them. The video links scrapped are organized and are categorized based on the TV channels/dates.

Technologies used: Groovy\Grails, MySQL, Quartz (for periodic scrapping jobs)

Xpressmark V2

It is a video bookmarking website where you can bookmark all the videos available online from youtube, dailymotion, vimeo, veoh etc...etc.. and view it in one place. The version 2 of the site was developed to include social networking feature and is still a work in progress.

Technologies used: Groovy\Grails, MySQL, jQuery.

My pet projects are work in progress and so was not released. Just shoot out a mail and I will love to show you a demo of all my projects.
